

REDEFINING INTRAORAL SENSORS

- EXPERIENCE THE HIGHEST RESOLUTION
- VATECH QUALITY AND DESIGN
- NEW CONTRAST FILTERS FOR YOUR PERFECT IMAGE
- DIRECT INTERFACE WITH USB 3.0

4.8 MM ULTRA-SLIM DESIGN

The HD Sensor features one of the thinnest CMOS sensors in the world, making it easier to position within the patient's mouth.

Available in 1.0, 1.5 and 2.0 sizes, the HD Sensor provides the correct sizing options for optimal patient comfort and positioning.

EXPERIENCE THE HIGHEST RESOLUTION

The HD Sensor is clinically usable at a wide range of exposure settings and is more consistent than all of the other sensors in the market. Practitioners benefit from a reduction of time consuming and exposure-related retakes.

Also, patients benefit from the reduction of radiation exposure. With our high sensitivity sensor, you can capture diagnosable images under any condition, even when using an old X-ray source.

(mGy) (sec)	65 kVp 6 mA 8 cm Al Filter												65 kVp 6 mA No Filter							
	0.020	0.025	0.030	0.040	0.050	0.060	0.100	0.125	0.160	0.200	0.250	0.320	0.400	0.500	0.630	0.800	1.000	1.250	1.600	2.000

C Company	[Image grid showing inconsistent results, some underexposed]																			
S Company	[Image grid showing inconsistent results, some overexposed]																			
O Company	[Image grid showing inconsistent results, some noisy]																			
F Company	[Image grid showing inconsistent results, some blurry]																			

NEW CONTRAST FILTERS FOR YOUR PERFECT IMAGE

Quickly and easily switch between seven new contrast filters to find your perfect diagnostic image. Higher contrast filters can be utilized for periodontics and periodontics diagnostics, while lower contrast filters can be used for caries detection and restorative dentistry. With the HD Sensor, you always have these filters at your disposal.

THE WORLD'S FIRST CLINICAL IMAGING & PATIENT CONSULTATION SOLUTION

Featuring... Vatech's Virtual Consultation Tool (VCT)

With over 200 unique animations, VCT gives you the tools to not only educate patients on treatment plans, but also show how this plan is relevant to their specific case.

Get The Most Out Of Your Images

Using our revamped Sharpening and Max Sharpening Tool, enhance the quality of your images even further than ever before.

Manage Your Images, The Easy Way

Organize and export your images quickly and efficiently and avoid complicated procedures and training using EzDent-i's intuitive Click-And-Drag based interface.
